Dear People,

You need to know this! Two weeks ago our house, garage and jacuzzi were re-roofed by Craig Van Duren's crew from **Cover Me Green Roofing**--455 E. Ocean Suite 21 Long Beach 90802. They did the most incredible job and we recommend them to anybody, anytime!!

First of all, when initially calling, within that day or next Craig was here to inspect the roof, take photos and immediately leave a detailed estimate. We called with a couple of questions which he answered. We live in Bluff Heights historical district and we wanted to be sure he was aware of that regarding choices etc. He was aware and had given us a brochure of our choices with the one he felt would work with our house color options. He has 30 years experience and of course is licensed and bonded.

We were sold and engaged him. Now it gets even better. He had a crew who were the hardest working most congenial bunch of guys who on the first day had cleaned, re-roofed the garage and jacuzzi and cleaned up perfectly. They all got along so well and were not only polite to us but to each other. They actually seemed to greatly enjoy their work. The additional workers on the job, truck deliveries, extra clean up crews etc. were all great too.

Craig was here a part of every day making sure every detail was to his specifications. It was a terrific team. I am so glad we decided to choose them to re-roof our home. It's beautiful and the whole job completed in four days totally as planned.

Hooray for Cover Me Green Roofing, Craig Van Duren and his whole crew. We wish them all the business possible.

Diane and David Reed
